

## ADVISING SCHEDULE for Full-time Students

### Drafting and Design Technology Program Degree Plan / Course of Study

#### Students entering in spring

##### Semester I

ELT	1103	Computer Concepts
*DFT	1205	Introduction to CAD
Math	1302	College Algebra
*DFT	2103	Construction Techniques
*CTT	2203	Drawing and Specifications

##### Semester II

DFT	1305	Architectural CAD
DFT	1405	Structural CAD
Engl	1311	English Composition I
DFT	1605	Estimating
DFT	1504	Mechanical

##### Semester III

DFT	2605	HVAC, Plumbing, Elec. CAD		
DFT	2305	Civil CAD		
Engl	1312	English Composition II	DFT	2204
Surveying & Elevations				
DFT	2505	Advance CAD		

##### Semester IV

MFT	2303	CAD/CAM
Math	1303	Trigonometry
Social Science		Approved Elective

#### GENERAL NOTES:

It is very important to take the above technical courses as listed in order to complete the degree plan in four semesters.

General Education and Development Courses are offered spring and fall semesters at night and Summer I and Summer II sessions. The student may elect to take the general courses off schedule.

The following courses are prerequisites to upper level courses:

*CTT	2203	Drawing and Specifications
*DFT	2103	Construction Techniques
*DFT	1205	Introduction to CAD

Upper level courses may be taken if:

Consent of instructor is given

Articulated from high school or industry. (Articulation agreement required)
